

PUREBEAU

CERTIFICATION OF COLOURS

Mixture for use In tattoo or permanent make up a.p. EU 2020/2081

Dermatest has tested the complete range of PUREBEAU micro-color pigments and colors for their dermatological and allergological safety and graded them as 'very good'. There were no incidences of allergic toxic-irritative reactions during any of the trials, which involved epicutan testing carried out in accordance with international guidelines.

All PUREBEAU colours and micro pigments are strictly controlled and meet highest standards of quality. All colour and micro-pigment products have been dermatologically tested and have also been tested for allergenic and hyperallergenic responses. There are no inherent risks from the products during medical and, in particular, radiological examinations (computer tomography).

All ingredients as per clean standards: Aqua, Glycerin, Alcohol, Propylene Glycol, Sodium Chlorid (+/-CI 77891, CI 77491, CI 77492, CI 77489, CI 77499, CI 77007, CI 77266, CI 77288, CI 77289, CI 77742, CI 19140:1, CI 56300, CI 69800, CI 65300, CI 56110, CI 561170, CI 15850, CI 15850:1, CI 15850:2, CI 15880:1, CI 71130, CI 12475, CI 59300, CI 21108 max 0,1%), upon request we document each purebeau Pigment with the appropriate MSDS Data Sheet, for the Individuell structure.
